ROAD WORN™ '50S TELE®:

Like classic cars or your favorite T-shirt, some things just get cooler with age. It's especially true of electric guitars—they develop an unmistakable mojo over time that only makes 'em look even cooler and feel even more comfortable than when they were brand-new. That said, Fender's new Road Worn™ '50s Tele guitar delivers that killer aged look, feel and mojo without breaking the bank; designed using 1950s specs augmented by Tex-Mex™ pickups and 6105 frets. A true player.
