

# 1 - Safety information

### Important safety information

This unit is intended for indoor use only. Do not use it in a wet, or extremely cold/hot locations. Failure to follow these safety instructions could result in fire, electric shock, injury, or damage to this product or other property.

Any maintenance procedure must be performed by a CONTEST authorised technical service. Basic cleaning operations must thoroughly follow our safety instructions.

This product contains non-isolated electrical components. Do not undertake any maintenance operation when it is switched on as it may result in electric shock.

### Symbols used

This symbol signals an important safety precaution.

The WARNING symbol signals a risk to the user's physical integrity. The product may also be damaged.

The CAUTION symbol signals a risk of product deterioration.

### Instructions and recommendations

#### 1 - Please read carefully :

We strongly recommend to read carefully and understand the safety instructions before attempting to operate this unit.

### 2 - Please keep this manual :

We strongly recommend to keep this manual with the unit for future reference.

#### 3 - Operate carefully this product :

We strongly recommend to take into consideration every safety instruction.

#### 4 - Follow the instructions:

Please carefully follow each safety instruction to avoid any physical harm or property damage.

### 5 - Avoid water and wet locations :

Do not use this product in rain, or near washbasins or other wet locations.

#### 6 - Installation :

We strongly encourage you to only use a fixation system or support recommended by the manufacturer or supplied with this product. Carefully follow the installation instructions and use the adequate tools.

Always ensure this unit is firmly fixed to avoid vibration and slipping while operating as it may result in physical injury.

### 7 - Ceiling or wall installation :

Please contact your local dealer before attempting any ceiling or wall installation.

#### 8 - Ventilation:

The cooling vents ensure a safe use of this product, and avoid any overheating risk. Do not obstruct or cover these vents as it may result in overheating and potential physical injury or product damage. This product should never been operated in a closed non-ventilated area such as a flight case or a rack, unless cooling vents are provided for the purpose.

#### 9 - Heat exposure

Sustained contact or proximity with warm surfaces may cause overheating and product damages. Please keep this product away from any heat source such as a heaters, amplifiers, hot plates, etc...

**WARNING**: This unit contains no user-serviceable parts. Do not open the housing or attempt any maintenance by yourself. In the unlikely even your unit may require service, please contact your nearest dealer.

In order to avoid any electrical malfunction, please do not use any multi-socket, power cord extension or connecting system without making sure they are perfectly isolated and present no defect.

### Warning

This product is equipped with Class 2 LEDs.
Please avoid looking directly at the beam as it may cause severe eve injuries.

### Recycling your device

• As HITMUSIC is really involved in the environmental cause, we only commercialise clean, ROHS compliant products.

 When this product reaches its end of life, take it to a collection point designated by local authorities. The separate collection and recycling of your product at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.

#### 10 - Electric power supply:

This product can only be operated according to a very specific voltage. These information are specified on the label located at the rear of the product.

### 11 - Power cords protection:

Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at lugs, convenience receptacles and the point where they exit from the fixture.

### 12 - Cleaning precautions :

Unplug the product before attempting any cleaning operation. This product should be cleaned only with accessories recommended by the manufacturer. Use a damp cloth to clean the surface. Do not wash this product.

### 13 - Long periods of non use:

Disconnect the unit's main power during long periods of non use.

### 14 - Liquids or objects penetration :

Do not let any object penetrate this product as it may result in electric shock or fire. Never spill any liquid on this product as it may infiltrate the electronic components and result in electric shock or fire.

### 15 - This product should be serviced when:

Please contact the qualified service personnel if:

- The power cord or the plug has been damaged.
- Objects have fallen or liquid has been spilled into the appliance.
- The appliance has been exposed to rain or water.
- The product does not appear to operate normally.
- The product has been damaged.

### 16 - Inspection/maintenance :

Please do not attempt any inspection or maintenance by yourself. Refer all servicing to qualified personnel.

#### 17 - Operating environment:

Ambient temperature and humidity: +5 - +35°C, relative humidity must be less than 85% (when cooling vents are not obstructed).

Do not operate this product in a non-ventilated, very humid or warm place.

### 2 - Introduction

This projectors is equipped with 5 super-powerful RGBWA+UV LEDs with high-performance individual lenses.

In addition to primary colours (such as blue, red, green...) the white shades and Amber create warm and brightful colours. On top of that, UV light is used to enhance white shades, turning them into an intense phoshorescent white. And when UV light is added to stronger colours it emphasizes their contrast, deepen their shade and you obtain a whole new palette of exclusive colours.

The irLEDFLAT-5x12SIXb is supplied with an infrared remote control to access colour control, built-in programs, DMX settings and a lot more. It also has a new double mounting bracket revolutionising ground handling. Thanks to the automatic abutment point, tightening the projector is independent from the mounting bracket blocking. You can now manipulate and adjust the projector with an optimal stability.

# 3 - Technical specifications

### • Its strengths:

- 6-in-1 LEDs
- Brightness
- Natural colours and light, exclusive UV shades
- Manual, music-sensitive and DMX modes, customisable user programs, built-in programs.
- 6-colour remote control supplied
- Infrared sensor (front) + infrared repeater system with 1m cable
- Power input/output

### • Functions:

- Built-in command panel with digital drop-down display for :
  - DMX addressing
  - Choosing the number of channels: 2 9
  - Choosing the built-in programs
  - Choosing the preset colours
  - Master/Slave mode
  - Music-sensitive mode and choosing the mic sensitivity
  - Edit and play your own 20-step program
- New infrared remote control giving you access to every remote function

### Optical:

- 5x12W 6-in-1 (RGBAW+UV) LEDs 30,000 hours
- Beamwidth: 40°

### • Connectors :

- DMX IN and OUT via 3-pin XLR.
- POWER IN/OUT via an IEC socket
- Power supply: 110/240 V 50/60 Hz
- Power consumption: 80 W
- Finish : Black
- Dimensions: 240 x 265 x 110 mm
- Weight : 2.8 kg

### · Package contents:

The package must contain the following products:

- A projector
- A user guide
- A double mounting bracket
- An infrared remote control
- A 2-pole + earth power cord
- An infrared repeater system with 1m cabl

# 4 - Description

# 1 Power input/output socket

Allows you to connect the projector to an electrical outlet and to link several projectors together via a Male/Female IEC cord. Please make sure the voltage is in adequation with the product indications.

Caution: Do NOT go over 700W on the same power source.

## 2 Fuse

If need to replace the fuse, please make sure the new fuse has exactly the same characteristics as the original one.

# 3 DMX input

3-pin female XLR plug hardwired as follows :

- Mass: 1
- Negative signal: 2
- Positive signal: 3

# 4 DMX output

3-pin male XLR plug hardwired as follows:

- Mass: 1
- Negative signal: 2
- Positive signal: 3

# 5 Display

This intuitive display allows you to configure your projector. Please refer to the next paragraphs for more details about the projector configuration.

### 6 MODE button

Allows you to access menus and select a function.

# 7 | SETUP button

Allows you to configure the parameters of the functions chosen with the MODE button.

# 8 UP button

Press UP to increase the adjustable values or browse the submenus.

## 9 DOWN button

Press DOWN to decrease the adjustable values or browse the sub-menus.

# 10 Infrared receiver input

This Jack 3.5 plug allows you to connect the infrared repeater system.

This receiver can be used when the front sensor of the projector is too far to receive the remote control commands.

# 5 - Menus and functions

Access the internal menu by pressing MODE.

To access a submenu, press MODE again.

Press SETUP to configure the selected function.

Simultaneously press MODE and UP if you want the display to stay lit all the time.

If you want the display to lit off when the menu remains inactive for more than 20 seconds, press simultaneously MODE and DOWN.

The irLEDFLAT SIX projectors feature several DMX modes to be fully compatible with different remote controls and projectors. Use the MODE button the choose a DMX mode. They are listed in the table below.

Mode	SETUP	UP and DOWN	Action
		CH86	6 channels : RGBWA Dimmers
		CH67	7 channels : RGBWAU Dimmers / Main dimmer and strobe
		ChC8	8 channels : RGBWAU Dimmers / Dimmer / Strobe
DMX modes		Ch.d2	2 channels : Macros and fixed colours / Dimmer, Speed and Sound
DIVIX IIIodes		C+ <u>E</u> 9	9 channels : RGBWAU Dimmers / Dimmer, Speed and Sound / Strobe
		[hf4	4 channels : RGB Dimmers / Main dimmer and Strobe
		ChOS	5 channels : RGBW Dimmers / Main dimmer and Strobe
	Address	ROO 1 RS 12	DMX addressing
	Colours	CLOO NAYY	Black-out, Colours 1 to 30 and 14 macros
Fixed colours and programs	Strobe	F500 F599	Strobe speed : FS.00 = No strobe ; FS.99 = Full speed
	Speed	E. D 1 E. 39	Macros speed
		r.000 (r.255)	Red: 0 - 100%
		6000 6255	Green: 0 - 100%
		<u>6000</u> <u>6255</u>	Blue: 0 - 100%
RVBWAU Dimmers		h000 h255	White: 0 - 100%
		R000 R255	Amber: 0 - 100%
		U000 U255	Ultra-violet: 0 - 100%
F500 F599		F500 F599	Strobe speed : FS.00 = No strobe ; FS.99 = Full speed
Automatic mode	RULO	E. D 1 E. 99	Vitesse du strobe : FS.00 = Pas de strobe ; FS.99 = Vitesse maximale
Music-sensitive mode	5U.C	10 Su3 1	Réglage de la sensibilité micro : SU.00 = sensibilité minimale ; SU.31 = sensibilité maximale
Slave mode		SL.Au	Active le mode esclave

		PLR4 SEOP	Starts the user program
		E. D 1 E99	Allows you to set the duration of the user program
User program	USEr	Fd.00 Fd.99	Configures the fade out time of every step of the program
		F5.00 F5.99	Allows you to set the flash rate of every step of the program
		d000 d255	Allows you to configure the max output (dimmer) of every step of the program
	Ed. 1L	SC.0 1 SC.20	Allows you to configure the number of steps of your user program. 20 steps max.
		SEO 1 SE20	Selects the steps you want to create/modify
		r.000 r.255	Red level settings for the selected step
User program		GDDD G255	Green level settings for the selected step
edition		6000 6255	Blue level settings for the selected step
		H000 H255	White level settings for the selected step
		R000 R255	Amber level settings for the selected step
		<u> </u>	UV level settings for the selected step
Infrared remote control	·	rEon rEof	Activates or deactivates the use of an infrared remote control to control the projector.

### More details about the fixed colours and sequences menu

# 6 - The various DMX modes

# 6.1 - 6-channel mode = RGBWAUV = $\boxed{\Box h P B}$

	DMX values	Effects
CHANNEL 1	000 - 255	Red from 0 - 100%

# 7 - Infrared remote control

Button	Action		
BlackOut	Projector OFF	BLACKOUT SELECT PROG FLASH/SPEED	
Select Prog	Gives you access to the 30 static colours, and to macros. Use the number keys 0 to 9, then use the + and - keys.	PROG (FS SP) AUTO MODE DMX MODE SET ADDR	
FLASH / SPEED	The action of this key depends on the mode of the projector:  - If the projector is using a macro or is in auto mode, this key acts on the speed. Use the + and - keys to configure the speed.  - If the projector is in manual mode or uses a static colour, this button acts on the strobe.  Use the + and - buttons to configure the strobe speed.	W UV A  R G B	
SLAVE / AUTO / SOUND	First pressure: Activates the slave mode (The red LEDs are flashing).      Second pressure: Activates the autom ode The green LEDs are flashing). The projector starts a 1-14 macro sequence.  Use the FLASH/SPEED button and the + and - buttons to configure the speed.      Third pressure: Activates the music-sensitive mode (Blue LEDs flashing).  Use the + and - buttons to configure the mic sensitivity.	1 2 3 4 5 6 7 8 9	
DMX MODE	Allows you to choose a DMX mode. Use the + and - buttons to switch from one mode to another.		
SET ADDR	Allows you to configure the DMX address of the projector.  For instance, to configure the address 245:  - Press SET ADDR, all the LEDs are flashing to indicate the process beginning.  - Press 2, the green LEDs of your projectors lit up to indicate the hundreds digit has been saved.  - Press 4, the blue LEDs of your projector lit up to indicate the tenths digit has been saved.  - Then press 5. All the LEDs will flash to confirm you the address has been saved properly.		
RGBWAU	These buttons allow you to manually configure the value of each colour.  Select a colour with one of these buttons, then press the + and - buttons to change their level.		
NOTE: The display will indicate the projector status for each action via the remote control.			

When changing of DMX mode via the DMX MODE button or with the projectors menu buttons, the LEDs will lit in a different colour for each DMX mode.

The following table indicates the relations between colours and DMX modes.

LED ON	DMX mode
Red	[LAS 6 channels
Green	[hb] 7 channels
Blue	[h[] 2 channels
White	[├dि] 9 channels
Red and Blue	[HEY] 4 channels
Red and Amber	[LF5] 5 channels
